

GREEN TECH Carpet & Tile Cleaning

About GreenTech Carpet & Tile Cleaning

About our name. Green and Tech, not necessarily two opposites. The Green in our name is about the cleaning solutions that we use as well as the process. We use only earth friendly cleaners that are also family friendly and contain little or no VOC's.

These are the same products that we use in our own home. They are not only safe, they are extremely effective.

The Tech part of our name refers to the investment in our top of the line cleaning equipment and training. We use rotary extractors when needed and high quality cleaning solutions that result in the best possible cleaning.

When we arrive at your home or business you will be completely informed of all costs before any work is performed. We will not leave until you are completely satisfied with all work performed.

Quality Service Protecting Your Investment.

Your carpet and upholstery represent a significant investment in your home's function and decor. Like other investments, they require professional maintenance to provide lasting life and beauty. Well maintained carpets and upholstery ensure a healthy home by reducing the amount of dust and allergens.

Upfront Pricing and Honest Recommendations.

Our courteous staff welcomes the opportunity of being invited into your home or business. We will make an assessment of which services will be most beneficial and offer the greatest value. You will be aware of all charges before work begins.

Every job owner supervised.

Ross C. Martin
Owner/Operator

Our staff is trained to perform in a non-rushed manner paying attention to detail. Our mission is to provide the best possible and thorough cleaning to your complete satisfaction.

We believe the only way of building our business is with satisfied and repeat clients. We are a family owned and operated company and all work is owner supervised.

When you call customer service you are speaking with an owner of the company.

Superior Service and Results at No Additional Cost.

Despite the superior results of our Green Cleaning System the cost is the same as traditional steam cleaning. Combine this with our money saving offers on deodorizing and stain protection. Please be sure to ask Ross or a member of the staff for our current promotions. You will have clean fresh carpet in your home or business at a fraction of the cost of new – **Guaranteed!**

GreenTech Carpet Cleaning Advantages:

- **Upfront Pricing and Honest Recommendations.**
- **Courteous and helpful staff who are ready to answer all of your questions.**
- **No harmful chemicals or detergents.**
- **Every job owner supervised.**
- **All Services are 100% Guaranteed!**
- **Superior Service and Results at No Additional Cost.**

Four Step Total Carpet Cleaning Process:

First, Pile and Nap Restoration:

A commercial vacuum will remove all dry soil and will restore the nap and pile of your carpet.

Second, Pre-spray and spot removal:

We will then apply a green detergent-free solution which will suspend the soil.

Third, Agitation:

The pre-spray will then be agitated into the carpet preparing the carpet for heated extraction and soil removal.

Fourth, Steam Extraction:

We will then remove the suspended soils with heated extraction leaving clean, fresh, odor-free carpet in your home.

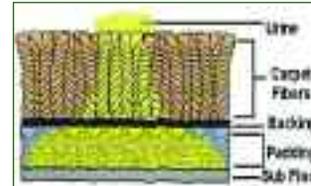

Upholstery & Leather Cleaning

A frequent deep cleaning of your upholstery will ensure longer life of your favorite furniture. Our experienced technicians will be able to give you an immediate evaluation of the required cleaning service. Restore the elegant beauty of your favorite upholstered, Micro-Fiber or leather furniture. See its rich texture and color restored as a compliment to your good taste. Any type of required cleaning service can be provided by our professional technicians from simple to delicate fabrics.

Pet Stain and Odor Removal

Remove pet odor at the source – the carpet padding:

Please be aware that a regular carpet cleaning will not remove the source of the odor. Pet urine seeps through the carpet backing to the padding below. With our unique sub-surface tools and powerful vacuums, we are able to remove pet stains and odors at the source of the problem – the carpet padding.

Tile and Grout Cleaning

We use a high pressure, high temperature cleaning method with spinning brush action powered by a 1200psi extraction unit to dissolve and force the dirt out of tile and grout. Our system allows us to remove years of build up from your flooring with ease thanks to our top of the line green cleaning solutions. We then apply a protectant sealer (if desired) to help protect and extend the life of your tile. You will see a dramatic improvement in your tile and grout as soon as we begin!
